

Sonos ZonePlayer 80

Wirelessly stream music to your home theatre, stereo and more.

Play all your favourite music, all over your house, on all your favourite audio equipment—your home theatre, stereo, powered speakers, and more.

Just connect a Sonos® ZonePlayer™ 80 (ZP80) to any amplified audio device in any room, and that device is instantly and seamlessly part of a wireless, multi-room digital music system. Which means you can use the full-colour Sonos Controller to control all your music, and all your rooms from the palm of your hand. You can also use a ZP80 to retrofit a conventional audio system with home-run speakers. No matter

where or how you use the ZP80, the digital and analog outputs will deliver superior sound to every room. And because the ZP80 is so compact, you can put it just about anywhere. You can connect up to 32 ZonePlayers throughout your house—combining the ZP80 and the ZP100 with built-in amplifier—for the ultimate in multi-room music.

Sonos ZonePlayer 80 (ZP80)

Play all your favourite music on your home theatre, stereo, powered speakers, and more.

Wireless, multi-room music	ZonePlayers™ can go anywhere and connect wirelessly. Play the same song in different rooms, or different songs in different rooms—simultaneously. <i>To get started, you must connect either a ZonePlayer or ZoneBridge™ to your home network using a standard Ethernet cable.</i>
Home theatre integration	Designed to connect to an external amplifier, the ZP80 seamlessly integrates your home theatre and other audio devices into your Sonos® multi-room digital music system.
Plug-and-play access to millions of songs	Sonos plays music from your personal digital music collection (stored on up to 16 PCs, Macs and NAS devices), plus select online music and radio services, or all of the above.
Analog and digital audio output	Connect to your home theatre receiver or amplifier with analog, optical and coaxial digital audio outputs. Fixed or variable audio output volume control provided.
Analog input with digital encoding	Music from an external audio source (such as a CD player, radio or MP3 player) can be connected to a ZP80 and played by all ZonePlayers in the system.
Easy setup	Automatic wired or wireless setup. Add new ZonePlayers with one-button press.
Full-featured alarm	Alarm with clock, snooze and sleep timer lets you wake up or fall asleep to your favourite music or Internet radio station. Supports 32 different alarms.
Automatic software updates	Once the Sonos system has been registered, Sonos will automatically notify you when software updates are available. Simply press one button to update your system with new features and music services.
