

All the music you want. All over your house.

Sonos ZonePlayer 90

ZP90

Wirelessly stream music to your home theater, stereo and more.

The Sonos® ZonePlayer™ 90 lets you play all the music you want, all over your house, on all the audio equipment you already own — your home theater receiver, stereo system, powered speakers, and more. Just connect the ZP90 to any amplified audio device in any room and it's instantly part of the wireless Sonos system. You can fill your house with ZP90s or mix and match with the amplified ZP120 for the ultimate in multi-room music.

When connected to your favorite audio equipment, the ZP90's digital and analog outputs deliver superior sound to every room. And with the ZP90's expansive wireless range, no room is out of reach. The ZP90 is super small, so it will fit just about anywhere.

Key Features

- Connects to all your favorite audio equipment
- Best-in-class wireless technology for multi-room music
- Instant access to endless music
- Simple setup
- New features and music services with automatic updates

Sonos ZonePlayer 90

Connects to all your favorite audio equipment

Connect the ZP90 to your home theater receiver, stereo system, powered speakers, and more — and enjoy the music. Digital and analog outputs deliver superior sound to every room.

Best-in-class wireless technology for multi-room music

SonosNet™ 2.0, our latest wireless mesh network technology, provides double the wireless range* for whole-house coverage, ensures synchronous music playback, and avoids sources of wireless interference. All without a massive wiring project.

Instant access to endless music

Wherever there's a ZP90 (or any other ZonePlayer), you can listen to your personal collection of music stored on your computer, thousands of free Internet radio stations and millions of songs from the most popular online music services. You can also connect the ZP90 to an iPod or CD player and listen to those tunes throughout the house.

Simple setup

No technical or wiring expertise required. No need to break through walls or re-wire the house. A high-speed Internet connection and router are all you need. One ZonePlayer or ZoneBridge™ must be connected to the router and all the rest work wirelessly. Then, add more ZonePlayers in more rooms without adding wires.

New features and music services with automatic updates

With free automatic software updates you'll always have the newest features and music services to enjoy. Which means your system will keep getting better even after you buy.

*Based on a comparison between a site using only SonosNet 1.0 products versus a site using only SonosNet 2.0 products. Actual range will vary with site conditions.

TECHNICAL SPECIFICATIONS
